

SQL (Structured Query Language)

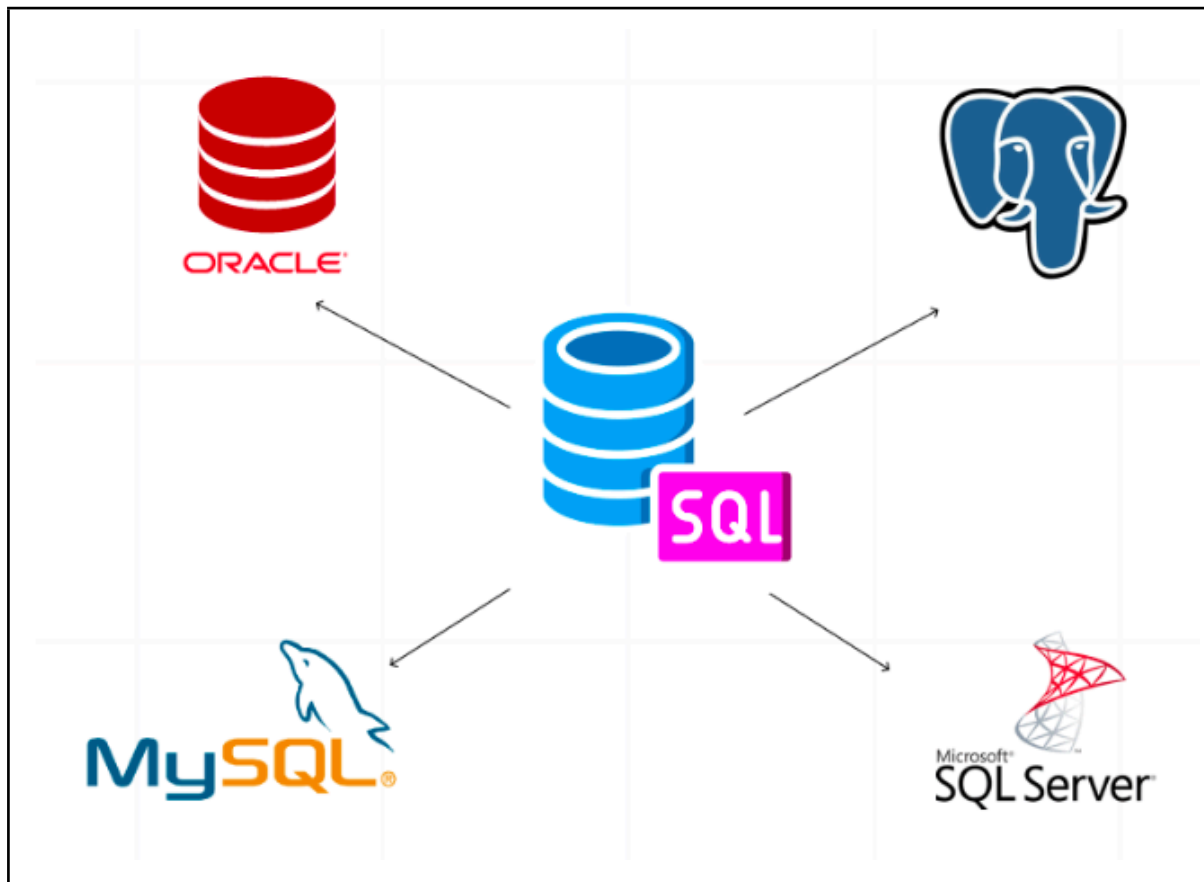

SQL is the programming language used to communicate with our database to get data out of it or put data into it. SQL can be applied to a variety of databases or SQL based softwares. PostgreSQL is one of those softwares which is also a great database choice for learning how to use SQL language.

SQL Example

```
SELECT
    customer_id,
    first_name,
    last_name
FROM sales
ORDER BY first_name;
```

Why is SQL so useful ?

SQL is used many database softwares like:

- MySQL
- PostgreSQL
- Oracle Database
- Microsoft Access
- Amazon's Redshift
- Looker
- MemSQL
- Periscope Data
- Hive (Runs on top of Hadoop)
- Google's Bigquery
- Facebook's Presto
